Let's Have A Picnic: An Auditory Memory Activity
I learned about this game when I was in graduate school and it is a great warm up or quick lesson to end the session. This activity works on auditory memory and concentration. Ideally, you everyone sit on the ground or at a table. Each person says "I am going on a picnic and I'm going to bring _____." As each person takes a turn, then have to remember all the food that came before them. You try to see how long you can go before someone messes up the picnic menu. I created visuals, so that you can scaffold this game for students who may not be able to recall many items. You can slowly fade the visuals away.
