

2019- 2020

School Year

Articulation Homework Calendars

Directions

- Print all calendars (either black and white or color).
- Students are encouraged to practice each day. Each day a student practices, the icon in the upper right hand corner of each day may be colored in.
- Calendars can be returned to you each week in a folder, and students may earn prizes or other rewards like stickers. I like to give a small sticker on a reward chart for each week a student returns the calendar and has participated in at least a few of the activities. After they receive 5 stickers, they receive a small prize from me (a pencil, eraser, bouncy ball, etc.).
- Included with this packet is a sample letter that is similar to one that I send home. I also include information in my letter about how the student can earn prizes.
- Also included is a communication log that parents can fill out at the end of the month to communicate how their child performed on the different tasks.

Dear Parents,

This is a calendar for you to use with your child to practice their speech sounds. Please try to complete as many of the activities per week as you can. When your child completes an activity, you can color in the picture that is located in the upper right corner of the day. All activities are designed to take less than 5 minutes. Some activities such as bike rides and walks may take a little longer.

The purpose of this calendar is to make speech and language practice fun. If your child has a favorite activity on this calendar, please allow for practice of that item as often as possible. Remember, practicing just 2 minutes a day over time, will greatly improve your child's speech. Practice at home will also help to maintain progress your child has made during speech and language sessions during the week.

Sincerely,

Speech-Language Pathologist

Communication Log

My child, _____, completed the articulation calendar for the month of _____.

My child was really great at the following activities:

My child had difficulties with the following activities:
